# Material Safety Data Sheet

# **SECTION 1. Identification**

| 1.1 Product identifier                                | STJ191988  |
|---|--|
| 1.2. Relevant identified<br>uses of the substance or  | This product is composed of mixture of affinity purified antibody in aqueous buffer solution, intended for the purposes of scientific research use only. It is not intended for diagnostic or other medical uses.  |
| mixture and uses advised against                      | This product contains no hazardous components, or the concentration of all chemical constituents is below the regulatory threshold limits described by European Directive 91/155/EEC, 93/112/EC and (EC) 1272/2008 (CLP).  |
| 1.3. Details of the supplier of the safety data sheet | St John's Laboratory Ltd<br>Knowledge Dock Business Centre<br>University Way<br>London<br>E16 2RD, UK<br>Tel: 0208 223 3081  |
| 1.4. Emergency<br>telephone number                    | UK - Call 111 if you urgently need medical assistance or advice if in a non-life-<br>threatening situation. 111 is available 24 hours a day, 365 days a year.<br>USA – Emergency services –Dial 911<br>EU – Emergency services – Dial 112<br>ROW – Please seek assistance from local country services. |

# **SECTION 2. Hazards Identification**

2.1 Classification of substance or mixture Product definition: Mixture

#### Classification according to Reg (EC) No. 1272/2008

Not a hazardous substance or mixture according to directives 67/548/EEC or 1999/45/EC. OSHA Hazard Communication Standard 29CFR1910:1200 classifies this product as non-hazardous.

#### 2.2. Label elements

The product is not required to labelled according to EC directives. Precautionary statements (EU) 28 1272/2008, wear appropriate PPE, gloves and protective clothing.

#### 2.3. Other hazards

Physical/chemical: NA Human health: NA

# SECTION 3. Composition/information on ingredients

#### 3.1 Substances

NA

#### 3.2 Mixtures

| Name         | EC#       | CAS#       | Amount |
|--------------|-----------|------------|--------|
| Glycerol     | 200-289-5 | 56-81-5    | 50%    |
| Sodium Azide | 247-852-1 | 26628-22-8 | <0.1%  |

According to European Directive 91/155/EEC and regulations (EC) 1272/2008 (CLP) Sodium Azide is non-hazardous when concentration < 0.1%.

### **SECTION 4. First Aid Measures**

#### 4.1. Description of first aid measures

| Eye<br>Exposure | In case of contact with eyes, immediately<br>flush eyes with water for at least 15 minutes.<br>Seek medical attention. |
|-----------------|--|
| Ingestion       | If swallowed and person is conscious, rinse  |
|                 | mouth with water. Seek medical attention.  |
| Inhalation      | If inhaled, move to fresh air. If breathing  |
|                 | difficulties occur, seek medical attention.  |
| Skin            | In case of contact, wash skin with soap and  |
| Exposure        | water.   |

# 4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

# 4.3. Indication of any immediate medical attention and special treatment needed

Not applicable.

# **SECTION 5. Fire Fighting Measures**

| 5.1. Extinguishing media  | Water spray, dry chemical, foam or carbon dioxide. |
|---|--|
| 5.2. Special<br>hazards arising<br>from the substance<br>or mixture | No data available.                                 |

| 5.3. Advice for<br>firefighters | Wear protective clothing and self-<br>contained breathing apparatus to<br>prevent contact with skin and eyes. |
|---------------------------------|---|
| 5.4 Further information         | No data available.  |

#### **SECTION 6. Accidental Release Measures**

\_

| 6.1. Personal<br>precautions,<br>protective<br>equipment and<br>emergency<br>procedures | Maintain adequate ventilation, eye<br>wash and quick drench facilities in<br>work area. Wear a lab coat,<br>chemical resistant gloves and<br>chemical safety. |
|---|---|
| 6.2. Environmental precautions  | Avoid dispersal of spilt material and runoff contact with soil. Prevent product from entering drains.   |
| 6.3. Methods and<br>material for<br>containment and<br>cleaning up                      | Absorb liquid with an absorbent<br>material. Transfer contaminated<br>absorbent to a chemical waste<br>container for disposal.                                |
| 6.4. Reference to other sections  | See Section 13.   |

# **SECTION 7. Handling and Storage**

| 7.1. Precautions for<br>safe handling                                      | Avoid inhalation and contact with<br>eyes and skin. Avoid prolonged or<br>repeated exposure.   |
|--|--|
| 7.2. Conditions for<br>safe storage,<br>including any<br>incompatibilities | Store according to instructions on the product label and data sheet.   |
| 7.3. Specific end<br>use(s)  | No other specific uses are<br>intended. These products are for<br>research purposes only and must<br>not be used in diagnostic or other<br>medical purposes. |

### SECTION 8. Exposure controls/personal protection

#### 8.1. Control parameters

| Name         | Occupational exposure limits (EH40/2005<br>WEL, UK)                        |  |
|--------------|--|--|
| Glycerol     | TWA (8 h): 10 mg/m <sup>3.</sup> Form: Mist                                |  |
| Sodium Azide | • TWA (8 h): 0.1 mg/m <sup>3</sup><br>STEL (15 min): 0.3 mg/m <sup>3</sup> |  |

#### 8.2. Exposure controls

| Engineering<br>Controls | Practice good safety and industrial<br>hygiene, ensuring PPE is worn prior to<br>handling. Wash hands after handling. |  |
|-------------------------|---|--|
| Eye/face                | Avoid contact with the eyes, and wear   |  |
| protection              | safety glasses or goggles with side   |  |
|                         | shields conforming to EN 166 (EU).  |  |
| Skin                    | Avoid contact with skin and mucous  |  |
| protection -            | membranes. Avoid prolonged or   |  |
| hands                   | repeated contact with skin, and wear  |  |

| 👃 St John's Laboratory                |
|---------------------------------------|
| gloves which conform to EN374 (EU).   |
| Gloves should be of non-reactive      |
| material such as latex, butyl rubber. |

|               | Gloves should be of non-reactive        |
|---------------|---|
|               | material such as latex, butyl rubber,   |
|               | polyvinyl chloride, etc. The use of     |
|               | gloves should take into account other   |
|               | chemicals which are being handled, as   |
|               | well as physical properties, such as    |
|               | puncture protection, dexterity and      |
|               | thermal protection.                     |
| Skin          | Lab coat should be worn to protect      |
| protection -  | other bodily areas, as well as footwear |
| other         | which fully covers the feet.            |
| Respiratory   | Under normal conditions of use a        |
| protection    | respirator is not required. Should a    |
|               | respirator be required the user should  |
|               | be properly trained to ensure proper    |
|               | fitting.                                |
| Thermal       | NA                                      |
| hazards       |   |
| Environmental | Comply with local environmental         |
| exposure      | regulations. Where necessary this may   |
| controls      | include the use of cases, fume          |
|               | scrubbers, filters or engineering       |
|               | modifications to equipment to reduce    |
|               | emissions to acceptable levels.         |
|               |   |

### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

| Physical State            | Liquid at room temperature. |
|---------------------------|-----------------------------|
| Colour                    | Colourless to yellow        |
| Odour                     | Odourless.                  |
| Melting/Freezing Point    | Data not available.         |
| Initial boiling point &   | Data not available.         |
| boiling range             |                             |
| Flammability              | Data not available.         |
| Lower and upper           | Data not available.         |
| explosion limit           |                             |
| Flash point               | Data not available.         |
| Auto-ignition             | Data not available.         |
| temperature               |                             |
| Decomposition             | Data not available.         |
| temperature               |                             |
| рН                        | Data not available.         |
| Kinematic viscosity       | Data not available.         |
| Solubility                | Soluble                     |
| Partition coefficient (n- | Data not available.         |
| octanol/water)            |                             |
| Vapour pressure           | Data not available.         |
| Relative density          | Data not available.         |
| Relative vapour density   | Data not available.         |
| Particle characteristics  | Data not available.         |
|                           |                             |

# 9.2. Other information

Not available

# SECTION 10. Stability and reactivity

### 10.1. Reactivity

No information available.

#### 10.2. Chemical stability

Product is stable under normal operating conditions, and when used according to the data sheet.

#### 10.3. Possibility of hazardous reactions

No known reactions when used as described.

#### 10.4. Conditions to avoid

Extreme temperatures and direct sunlight.

#### 10.5. Incompatible materials

No information available.

#### 10.6. Hazardous decomposition products

None under normal use conditions.

### **SECTION 11. Toxicological information**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

This product is for experimental/research uses only. It has not been completely analysed, and all of the hazards may not be known.

| Name                                 | LD50 Oral                            | LD50 Dermal                        | LC50<br>Inhalation        |  |  |
|--------------------------------------|--------------------------------------|------------------------------------|---------------------------|--|--|

#### 12.2. Persistence and degradability No data available.

12.3. Bioaccumulative potential No data available.

#### 12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment No data available.

12.6. Endocrine disrupting properties No data available.

#### 12.7. Other adverse effects

No data available

# **SECTION 13. Disposal considerations**

# 13.1. Waste treatment methods

# Product

Dispose of in accordance with local laws and national/federal regulations. Smaller quantities may be disposed of with solid waste.

#### Packaging

Contaminated packaging should be disposed of in the same way as unused product.

### **SECTION 14. Transport information**

#### 14.1. UN number or ID number, groups and classes **Chemical Inventory Status**

| DOT      | Not regulated                           |  |
|----------|---|--|
| ADR/RID  | Considered non-hazardous for transport. |  |
| IMDG     | Considered non-hazardous for transport. |  |
| IATA     | Considered non-hazardous for transport. |  |
| IATA-DGR | Considered non-hazardous for transport. |  |

#### 14.6. Special precautions for user

Transport within user's premises: always transport within closed containers which are upright and secure. Users should be trained in the event of an accident of spillage.

#### 14.7. Maritime transport in bulk according to IMO instruments Not applicable.

# **SECTION 15. Regulatory information**

This safety data sheet conforms to regulation (EC) No. 1907/2006 (REACH), Annex II.

15.1. Safety, health and environmental regulations/legislation specific for the substance or Mixture

No data available.

15.2. Chemical safety assessment

No chemical safety assessment was carried out for this product.

# **SECTION 16. Other information**

The products referenced in this sheet are sold with intention for research use only by personnel familiar with chemicals and trained professionals with good laboratory practices in science research. No other use is intended, and any other use may involve substantive hazards.

All information is believed to be correct at the time of writing, does not purport to be all inclusive and shall be used only as guide for experienced personnel. Users should carry out their own investigation to determine the suitability of the information for their purposes. In no way shall we be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising from using the above information.
